

KIDS IN MOTION

Tomahawk Elementary School

Kids In Motion is a Before School Program where students may participate in open gym for one hour before the start of their school day. This program is offered to students in grades kindergarten through 5th at Tomahawk Elementary School.

Participation provides students the opportunity to engage in physical activity prior to the start of classes which helps stimulate the brain so they are better prepared for learning. Kids In Motion promotes healthy activities, exercise, good sportsmanship, fun, laughter, the opportunity to build new and existing relationships, and the introduction to new activities that exercise both the body and brain.
